SUBJECT: Request for Location and Design Approval

Description and Project Proposal: This project proposes to replace the bridge on SR 85 over Lane Street/CS 811 in the city of Manchester in Meriwether County. The proposed project will replace the existing 138-ft long, 42-ft 2.5-in wide bridge over Lane Street with a new 177-ft long, 41-ft 6-in wide bridge. The total length of the proposed project is approximately 1050 feet (0.2 miles).

Concept Approval Date: January 24, 2017

Concept Update: The following changes were made to the project.

1. The length of the new bridge changed from 138 feet to 177 feet.
2. The length of the project was changed from 528 feet (0.10 miles) to 1050 feet (0.20 miles).

Environmental Document:

Document Type: NEPA - Categorical Exclusion Approval Date: 4/1/2020

Public Involvement:

No public comments were received from the Public Information and Detour Open House that was held on March 30, 2017 at the City of Manchester Community Building.

Consistency with Approved Planning: The design description as presented herein and submitted for approval is consistent with the approved Concept Report.

Recommendations: Recommend that the location and design for the project be approved and that the attached Notice be approved for advertising.

Concur:

GDOT Director of Engineering

NOTICE OF LOCATION AND DESIGN APPROVAL

P. I. 0007044 ***MERIWETHER COUNTY***

Notice is hereby given in compliance with Georgia Code 22-2-109 and 32-3-5 that the Georgia Department of Transportation has approved the Location and Design of this project.

The date of location and design approval is: **May 6, 2020**

This project proposes to replace the bridge on SR 85 over Lane Street/CS 811 located in the city of Manchester in Meriwether County, Land Lot 269, Land District 2. The proposed project will replace the existing 138-ft long, 42-ft 2.5-in wide bridge over Lane Street with a new 177-ft long, 41-ft 6-in wide bridge. The total length of the proposed project is approximately 1050 feet (0.2 miles).

The approximate construction time is 18 months. During construction traffic on SR 85/Broad Street will be temporarily shut down and re-routed with an offsite detour. The northbound detour would re-route traffic from SR 85/Broad Street left onto SR 41/US27(ALT)/W 2nd Street, continue right onto SR 41/US 27(alt)/S 5th Ave, then right onto SR 85/Foster Street. The Proposed detour route would be 1.8 miles in length.

NOTE: Ordinarily the maps or plats would be available for public review at our area office. Due to current COVID-19 measures, members of the public are not allowed to enter state buildings at this time. We apologize for the inconvenience. Anyone with questions or concerns about the project should call or email the area engineer listed above. To obtain copies of the drawings, maps or plats, please follow the instructions outlined below.

William Boyd, Area Engineer
District 3, Area 5
wboyd@dot.ga.gov
1107 Hogansville Rd
LaGrange, GA 30240
(706) 845-4115

Any interested party may obtain a copy of the drawings or maps or plats or portions thereof by paying a nominal fee and requesting in writing to:

Kimberly Nesbitt, State Program Delivery Administrator
